WORK EXPERIENCE

Chegg India October 2021 - Present
- Subject Matter Expert in computer science
- Solved queries of hundreds of students and developers by providing solutions to their problems

Connect Bees (Internship) July 2022 - Sept 2022
- Worked as a Frontend Intern
- Developed a landing page for their startup
- Used React.js as Frontend Framework

PROJECTS

FireVdos (YouTube Clone)
- Developed FireVdos, a YouTube clone using React.js, Firebase, React Query, Tailwind CSS and Rapid API.
- FireVdos has a rich user interface and with full suite of functionalities like user authentication, trending videos, liked videos, user history, subscribed channels, light and dark mode, voice search, search suggestions, social media sharing and many more.

Infinity Blogs
- Developed a blogging website utilizing React JS for frontend, Context API for state management, and Firebase for authentication, storage, and hosting.
- Empowered users with the ability to create, read, update, delete and like blogs, offering a seamless experience with secure user authentication, convenient data storage, and responsive user interface.

Lab Partner
- Developed a solution-based website using React JS, Firebase, and Tkinter (Python).
- Developed a responsive and user-friendly interface, providing solutions for labs and assignments. Additionally, the website includes an Auto Typer to enhance user productivity.
- It was a team project in which I developed Home Page and Auto Typer.
